Objective of Seminar

The National Seminar on “Human Rights Challenges in the Contemporary World: Evolving Landscape of Law & Technology” organized by Faculty of Law is designed to provide a robust platform for academicians, legal professionals, research scholars, and students to engage in critical discussions on the human rights challenges in the contemporary world. The primary objective of the Seminar is to create a platform for critical reflection on the evolving interface of law, technology, and human rights, and to explore strategies for safeguarding human dignity and liberty in the digital era. The Seminar aims to explore and address the challenges and opportunities arising from contemporary legal developments in the area of law & technology impacting human rights. Through focused sub-themes such as Impact of Artificial Intelligence (AI) on Human Rights, Human Rights Challenges in the Digital Era / Human Rights and Cybersecurity and E-Governance and Human Rights, the Seminar aims to promote interdisciplinary research and policy-
