

## Faculty of Engineering

### ACTIVITY COMPLETION REPORT

**Institute:** Faculty of Engineering, Major S.D. Singh University, Farrukhabad

**Activity:** Engineering Ethics & Professional Values

**Date:** 01/08/2026

**Venue:** Faculty of Engineering, Major S.D. Singh University, Farrukhabad

**Organized by:** Engineering Department

**Coordinator:** Dr. Anil Kumar Yadav / Faculty Members

#### Objectives

- To create awareness among students about the importance of engineering ethics and professional values.
- To develop a sense of professional responsibility, integrity, honesty, and accountability among future engineers.
- To familiarize students with ethical principles and their application in engineering practices.
- To encourage students to make responsible and ethical decisions while addressing professional and technical challenges.
- To promote respect for society, the environment, colleagues, and professional standards.
- To prepare students to handle ethical issues and challenges in their future professional careers.

#### Description of the Activity

An activity on **Engineering Ethics & Professional Values** was organized on **01.08.2026** by the Engineering Department, Faculty of Engineering, Major S.D. Singh University, Farrukhabad. The activity aimed to create awareness among students regarding the importance of ethical conduct, professional responsibility, integrity, and accountability in the engineering profession.

During the programme, students were introduced to various aspects of engineering ethics and professional values, including honesty, transparency, respect, responsibility, confidentiality, fairness, and commitment to professional excellence. Discussions focused on the role of engineers in ensuring public safety, protecting the environment, maintaining professional standards, and contributing positively to society.

The activity was conducted under the guidance of **Dr. Anil Kumar Yadav** and faculty members of the Engineering Department. Students actively participated in discussions and shared their views on ethical challenges that engineers may encounter in academic, professional, and industrial environments. Real-life professional situations and examples were discussed to help students understand the importance of ethical decision-making.

The programme provided students with an opportunity to understand that technical knowledge must be complemented by strong ethical values and professional conduct. The interactive nature of the activity encouraged students to develop responsible attitudes and prepared them to contribute meaningfully to the engineering profession and society.

#### Outcome of the Activity

- Students developed awareness about engineering ethics and professional responsibilities.
- Improved understanding of integrity, honesty, accountability, fairness, and professional conduct.
- Students gained knowledge about ethical decision-making in engineering and professional situations.
- Enhanced awareness regarding engineers' responsibilities towards society, safety, and the environment.
- The activity encouraged students to develop responsible and professional attitudes.
- Students were motivated to uphold ethical standards and professional values in their future careers.

#### Highlights

- Engineering Ethics & Professional Values activity successfully organized by the Engineering Department.
- Faculty members guided students on the importance of ethical and responsible engineering practices.
- Interactive discussions encouraged students to share their views on professional and ethical issues.
- Real-life examples helped students understand the practical importance of engineering ethics.
- The activity strengthened students' awareness of professional responsibility and ethical decision-making.
- The programme promoted integrity, accountability, social responsibility, and professional excellence among students.
