### 2. Description & Objectives of the Activity

An Orientation Programme was organised by the Faculty of Agriculture for newly admitted students for the academic session 2026–2027. The programme began with a welcome address by the faculty authorities, followed by an introduction to the University and Faculty of Agriculture. Students were briefed about the academic curriculum, teaching-learning process, examination pattern, attendance requirements, practical training, laboratory facilities, library resources and various student-support services. Faculty members introduced themselves and explained the scope and importance of different subjects in agriculture. Students were also informed about skill-development programmes, internships, field visits, agricultural clubs, extracurricular activities, career opportunities and higher education prospects. An interactive session was conducted to address students' queries and help them become familiar with the academic environment.

### 3. Outcome of the Activity

The orientation programme successfully familiarized newly admitted students with the academic and university environment. Students gained awareness about the course structure, academic rules, facilities, practical training, and career opportunities in agriculture. The programme helped students develop confidence, understand their academic responsibilities and establish positive interaction with faculty members and fellow students. It also motivated them to actively participate in academic, practical, co-curricular and skill-development activities.
