Objectives of the activity:

- To introduce the students to the college, university, faculty members and support services.
- To explain general rules, regulations, attendance, discipline and academic expectations.
- To familiarize students with classrooms, nursing laboratories and library facilities.
- To introduce the importance of procedure-based learning and OSCE in nursing education.
- To develop awareness regarding the scope and different areas of healthcare nursing.
- To understand nursing as a profession, professional councils and the contribution of Florence Nightingale.
- To provide information about clinical training, nursing departments, community-based practice and productive learning.
- To motivate students by discussing career and professional opportunities available in nursing.

Description of the activity:

Day 1 – 05 /08/2026

The first day began with an orientation on general college rules and regulations. Students were introduced to the expected standards of discipline, attendance and academic conduct. A self-introduction session helped students and teachers become familiar with one another. Document and admission-related verification was also completed.

Day 2 – 06/08/2026

Students received an orientation to classrooms, nursing laboratories and the library. A PPT presentation led by the Dean and faculty provided an overall view of the college, its academic environment and available facilities. The day concluded with a detailed session on rules and regulations, helping students understand their responsibilities as nursing students.

Day 3 – 07 /08/ 2026

A guided campus tour was conducted by faculty members. Students visited and became familiar with the important areas and facilities of the campus. A session on procedure-based learning and OSCE explained the importance of practical skill assessment in nursing. Students were also introduced to the scope and different areas of healthcare nursing.

Day 4 – 08 /08/ 2026

The final day focused on professional identity and future development. Students learned about nursing as a profession, professional councils such as INC and UPSMFAC, and the contribution of Florence Nightingale. Career and employment opportunities in nursing were discussed. The sessions also covered community-based nursing practice and the importance of clinical training, nursing departments and productive learning.

Outcome of the Activity:

- Students became familiar with the college campus, classrooms, laboratories and library.
- Students understood important academic, disciplinary and institutional rules.
- Students developed an initial understanding of professional nursing roles and responsibilities.
- Students learned the importance of practical skill development, procedure-based learning and OSCE.
- Students gained awareness of clinical training and community-based nursing practice.
- Students received guidance regarding professional councils and career opportunities in nursing.
- The programme encouraged confidence, interaction, teamwork and a positive attitude towards nursing education.
