The objectives of a Workshop on Workshop on Master how to build AI Flows easily:

To learn how to design, build, and automate AI-powered workflows easily, using practical tools and techniques to connect AI models, data, applications, and business processes with minimal coding.

Description of the Activity:

“Master How to Build AI Flows Easily” is a hands-on learning activity designed to help participants understand and create AI-powered workflows without requiring advanced programming skills. Participants learn how to connect AI tools, automate tasks, structure prompts, integrate data, and build practical AI flows for real-world use cases.

Activity includes:

- Introduction to AI flows and workflow automation
- Building and testing a practical AI flow
- Troubleshooting and improving workflow performance
- Applying AI flows to real-world business or personal tasks

Outcomes of the Workshop Activity

By the end of the workshop, participants will be able to:

- Create practical AI flows for real-world use cases.
- Test, troubleshoot, and improve AI workflows.
- Reduce repetitive manual work through AI automation.

- Develop confidence in using AI to improve **productivity, efficiency, and innovation.**
