

Faculty of Engineering

ACTIVITY COMPLETION REPORT

Institute: Faculty of Engineering, Major S.D. Singh University, Farrukhabad

Activity: Model Presentation

Date: 30/07/2026

Venue: Seminar Hall, Faculty of Engineering, Major S.D. Singh University, Farrukhabad

Organized by: Faculty of Engineering

Objectives

- To encourage students to apply theoretical knowledge through innovative engineering models.
- To enhance creativity, technical skills, and problem-solving abilities among students.
- To provide a platform for students to showcase their innovative ideas and projects.
- To promote teamwork, communication, and presentation skills.
- To motivate students towards research, innovation, and practical learning.

Description of the Activity

A Model Presentation was organized on 29.07.2026 in the Seminar Hall of the Faculty of Engineering, Major S.D. Singh University, Farrukhabad. The event aimed to provide students with an opportunity to demonstrate their technical knowledge and innovative ideas through working and non-working engineering models. Students from different engineering branches enthusiastically participated and presented models based on emerging technologies, renewable energy, automation, robotics, smart systems, environmental sustainability, transportation, and other engineering applications. Faculty members evaluated the models based on innovation, technical content, creativity, practical implementation, and presentation skills. The programme witnessed active participation from students, faculty members, and university officials. Interactive discussions between students and judges encouraged knowledge sharing and inspired participants to develop practical engineering solutions for real-world problems.

Outcome of the Activity

- Active participation of students from various engineering departments.
- Display of innovative and technically sound engineering models.
- Improved practical knowledge, technical understanding, and presentation skills among students.
- Enhanced teamwork, creativity, and confidence in project development.
- Encouraged students to pursue research, innovation, and industry-oriented learning.

Highlights

- Model Presentation successfully organized in the Seminar Hall.
- Innovative and working models displayed by students.
- Faculty members evaluated the models and appreciated students' technical efforts.
- Interactive sessions promoted knowledge sharing and collaborative learning.
- The event motivated students to develop practical engineering solutions and strengthened their interest in research and innovation.
- Prize Distribution Ceremony was conducted to felicitate the winners and participants for their outstanding model presentations, innovation, and technical excellence.
